

Shield 3 in 1 Notebook Screen Protector, Cleaner, Mouse Pad

EKF802

Laptop manufacturers leave very narrow keyboard to LCD screen tolerances in closed laptops, which over time leads to visible scratches on your LCD screen.

The Shield protects against this by sandwiching between your vulnerable LCD screen and keyboard, providing a soft anti-scratch buffer.

In addition to preventing the keyboard and palm rests from transferring dirt, oils, and scratch marks to the screen, the Shield's microfiber surface can be used as a cleaning cloth, or as a travel mouse pad thanks to its non-slip rubber backing.

The simple 3-in-1 design and portable size make the Shield a great addition to your travel kit.

- * Shields and protects notebook LCD displays from oils, dirt, scuffs and abrasions
- * Uniquely designed to clean & buff LCD displays
- * Ultra-soft fabric combined with a cushioned foam layer produce a wrinkle, fray and tear-free protective essential
- * Works great as a mobile mouse pad
- * Fits most popular laptop sizes

As with all Everki products, the product is backed by Everki's Limited Lifetime Warranty and world-class customer service.
