

## FIBRE CLEANING TECHNIQUES USING THE IBC BRAND FIBRE CLEANER

How to clean fibre bulkheads and fibre connectors using the IBC Brand Fibre Cleaner.

### USING EXTENDED MODE

To use extended mode, pull the tip outward while simultaneously pushing down on the lock button. Extended mode is useful for panels with multiple bulkhead connectors or other tight spaces.

### CLEANING FIBRE BULKHEADS

Remove the guide cap completely from the device, and insert the tip of the cleaner into the bulkhead connector. Push the case to start the cleaning process; a click indicates that the cleaning is complete.

### CLEANING FIBRE CONNECTORS

Open the cover on the guide cap, and insert the fibre connector over the guide cap. Push the case to start the cleaning process; a click indicates that the cleaning is complete.
