USB POWERED SPEAKERS

Ultra Bass

Installed in the tiny body of the SP303 is a powerful 45mm speaker. The big driver occupies all the room inside speaker producing top quality music playback.

You can enjoy you great music wherever you are with these ultra portable USB powered speakers. The Round End design means the speakers are free of sharp angles which make them easy to carry around. You'll get an exciting full range of sound from these SP303 speakers.

The curved figure and bright green ring are attractive and adorable. It is equipped with externally-connected power supply via USB port and provides specially excellent sound. In terms of acoustics, the shape of the speaker has been designed to minimize stationary waves inside the box in order to raise audio purity. Full-frequency-band USB-powered loudspeakers enhancing output volume.
